

6th International Conference on **Cardiology**

Theme: Exploring New Horizons in Cardiology and Research

Date

Nov 13, 2026

Venue

Bangkok, Thailand

SCAN ME

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives. Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges. Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide. We bring in eminent speakers with world-class expertise from various countries to enlighten our researchers and spark enthusiasm for research through our best conferences. These events provide a platform for effective collaborations on the latest research for the worldwide community. Our conferences include exceptional keynote speeches, interactive sessions, and lively debates on research and development in Medicine, Engineering, and Technology. ([click here for more](#))

About Conference

Scientex Conferences feels auspicious to invite all the eminent professionals in the field of Cardiovascular to the 6th International Conference on Cardiology, to be host on November 13, 2026 in the futuristic city of Bangkok, Thailand. This premier event is a significant gathering for experts, researchers, and professionals in the field of cardiology, providing a platform to share groundbreaking research, innovative practices, and the latest advancements in the domain.

For professionals in the fields of medicine, industry, pharmacology, surgery, teaching, and learning practices, Heart 2026 offers a great opportunity. The goal of Heart 2026 is not only to discuss the main theme of the conference, but also to connect the people in the same field across the globe which may pave the way for building a better community for brighter future in the field of cardiology. ([click here for more](#))

Conference Schedule

November 13, 2026 (Friday)

08:55-09:00	-	Registration
09:00-09:15	-	Opening Ceremony and Introduction
09:15-10:30	-	Keynote Session
10:30-10:50	-	Refreshment Break
10:50-12:30	-	Break Out Session
12:30-13:30	-	Lunch
13:30-15:00	-	Break Out Session
15:00-15:30	-	Refreshment Break
15:30-17:00	-	Break Out Session

6th International Conference on Cardiology

November 13, 2026 | Bangkok, Thailand

SPEAKER PRESENTATIONS

Session: Heart Devices & Innovations | Echocardiology, Valvular Diseases, Cardiac Imaging

Title: Predictive value of left ventricular global function index in patients with aortic stenosis

Kapustina Anastasiia, Central Clinical Hospital With Outpatient Clinic, Russian Federation

Title: Heart valve disease in gout: A clinical observation

Nadezhda Magdeeva, Saratov State Medical University named after V.I. Razumovsky, Russian Federation

Title: Diagnostic Accuracy of Global Longitudinal Strain for Detecting Significant Coronary Artery Disease in Diabetic Patients without Regional Wall Motion Abnormality

Oumaima Alaika, Mohammed V University, Morocco

Title: A Unique Case of Aortic Mural Thrombus in the Non-Atherosclerotic Aorta of a Patient with Multiple Hypercoagulable Factors

Mohammad Shan Ansari, VMMC & Safdarjung Hospital, India

Title: Epicardial adipose tissue thickness as a marker of regional myocardial dysfunction in patients with hepatic steatosis: Results of a pilot observational study

Zaur Abulfaz oglu Imanov, Shirvan City Central Hospital, Azerbaijan

Title: Prognostic significance of breast arterial calcifications in cardiovascular risk stratification in patients with breast cancer

Sahila Shirinzade, National Oncology Center, Azerbaijan

Title: Diagnostic role of CT in the detection of chemotherapy-induced cardiotoxicity

Sahila Shirinzade, National Oncology Center, Azerbaijan

Title: Prevalence & pattern of coronary artery disease in patients with valvular heart disease undergoing pre-operative angiography

Muhammad Tariq, Sheikh Mohamed Bin Zayed Al Nahyan Institute of Cardiology, Pakistan

Session: Cardiovascular Diseases, Heart Diagnosis and Cardiovascular Research

Title: The Prevalence of Left ventricular hypertrophy as a feature of hypertensive heart disease in a tertiary hospital in Tanzania: An echocardiographic registry

Henry Anselmo Mayala, Jakaya Kikwete Cardiac Institute, Tanzania

Title: Serum adiponectin and metabolic alterations in HIV patients on heart: Evidence from rivers state university teaching hospital

Thankgod Prince Ohaka, Rivers State University, Nigeria

Title: Inflammatory burden in distinct clinical groups of patients with acute coronary syndrome

Aglaya O Nikitina, Russian Federation

Title: BDNF/TrkB signaling in stable coronary artery disease

Olga Atamas, Far Eastern Federal University (FEFU) Medical complex, Russian Federation

Title: Critical evaluation of anxiety as aetiological factor for development of heart disease in albino rats WSR to lipid profile and cardiac biochemistry and biopsy

Subhash Waghe, SAM College of Ayurvedic Sciences & Hospital, India

Title: Efficacy of Angiotensin-Receptor Neprilysin Inhibitor Therapy in Patients with Refractory Heart Failure: A Prospective Cohort Study

Alaa Fathy Elsaid, Cairo University, Egypt

Title: Involvement of the BAFF/BAFFR axis and macrophage polarization in antibody-mediated cardiac transplant rejection: From diagnosis to therapy

Cristiana Bellan, University of Siena, (UNISI), Italy

Title: Predicting Future Cardiovascular events by Lipid Core Burden

Farrukh Malik, Severance Cardiovascular Hospital, South Korea

Title: From evidence to efficacy: Applying evidence and guideline updates to individualize angina treatment

Jose Lopez-Sendon, Autonomous University of Madrid, Spain

Title: Association between baseline soluble st2 levels and left ventricular ejection fraction in patients with heart failure

Gulana Aghayeva, European International Hospital, Azerbaijan

Title: Some vascular pathology in patients with headache and arterial hypertension

Sofia Ilyinichna Mizgireva, Bakulev Federal State Budgetary Institution, Russian Federation

Title: Incidence of coronary artery disease among copd patients with uncontrolled dyspnoea despite optimal bronchodilator therapy

Suvendu Chattopadhyay, Manipal broadway Hospital, India

Session: Interventional Cardiology, Cardiovascular Diabetology, Obesity & Stroke

Title: Impact of Atherogenic Index of Plasma on Spontaneous Reperfusion and its Implications on mid-term Outcomes in Patients with ST-Segment Elevation Myocardial Infarction

Faysal E Radwan, Zagazig University Hospital, Egypt

Title: Trends and outcomes of ST-segment elevation myocardial infarction in two tertiary cardiology centres in Sri Lanka

Gotabhaya Ranasinghe, National Hospital of Sri Lanka, Sri Lanka

Title: Post cabg stemi: A clinical challenge?

Punish Sadana, Max Superspeciality hospital, India

Title: Beyond weight loss and diabetes control : GLP1 agonists' role and paradigm shift in cardiovascular care

Syed Raza, Awali Hospital, Bahrain

Title: Ultrasound-accelerated catheter-directed thrombolysis for lower extremity arterial thrombosis: A systematic review and meta-analysis

Gordey Vlask, National Medical Research Treatment and Rehabilitation Center, Russian Federation

Title: Characteristics and prognostic value of cerebral hemodynamic parameters in patients with ischemic stroke

Tatyana Naiden, The North-Western State Medical University, Russian Federation

Title: Association of rs2073618 Polymorphism and Osteoprotegerin Levels with Hypertension and Cardiovascular Risk in Patients with Type 2 Diabetes Mellitus

Mahaboob V Shaik, Dr NTR University of Health Sciences, India

Title: Ticagrelor related anaphylactic shock in a STEMI patient

LAM Man Tat, Cardiologist of C.H.C.S.J, Macao

Title: Real-World Observational Study in Patients on Teneclisaptin/Teneclisaptin + metformin Therapy for the Management of Type 2Diabetes Mellitus

Shalini Kumar, Medical Affair Ajanta Pharma Ltd, India

Title: Characteristics and prognostic value of cerebral hemodynamic parameters in patients with ischemic stroke

Tatyana Naiden, Mechnikov North-Western State Medical University, Russian Federation

Title: Balloon pulmonary angioplasty for inoperable CTEPH: Early outcomes of clinical implementation in a hospital without on-site cardiothoracic surgical backup

Vakhtang Safaryan, Moscow City Hospital N°29, Russian Federation

Title: Factors associated with recurrence of deep vein thrombosis in a cardiology department in sub-Saharan Africa

Martin Wendlassida Nacanabo, Bogodogo University Hospital, France

Title: Clinico -biochemical profile and outcomes in young adults with st-segment elevation myocardial infarction at a tertiary care hospital

R. Surendar, JIPMER University, India

Title: Study on the prevalence of risk factors for diabetic neuropathy in type 2 diabetes mellitus in tertiary care hospital of Gujarat

Haresh J Panchal, GMERS Medical College, India

Title: Comparison of stent geometry achieved by different side-branch ballooning techniques for bifurcation provisional stenting

Mattia Lunardi, Policlinico Universitario Agostino Gemelli, Italy

Title: The gluco-vascular injury axis in diabetic cardiovascular dysfunction: a narrative review

Mohammad Faraz Omail, St Peter's Hospital, UK

Session: Pediatric & Women's Cardiology | Cardiac Surgery

Title: Vascular surgery core curriculum for medical degrees in Brazil: a proposal

Alexandre Yoshiharu Shiomi, Avenida Cândido de Abreu, Brazil

Title: Coronary artery bypass grafting with or without coronary endarterectomy-short term outcomes

Javed Iqbal, Rawalpindi Institute of Cardiology, Pakistan

Title: Brain abscess in heterotaxy syndrome with left isomerism and Eisenmenger physiology: A case report

Jonsi Tavethia, B J Medical College, India

Title: Residua, Sequelae and Complications of cardiac defects in adult congenital heart disease after repair at an early age

Mohammad Ashraf Uddin Sultan, Bangladesh Medical University, Bangladesh

Title: Surgeon's perspective on managing patients during cardiopulmonary bypass: Experience from over 1000 cases

Abir Tazim Chowdhury, Evercare Hospital Dhaka, Bangladesh

Title: Prognostic value of matrix metalloproteinase 9 (mmp9) in patients following off-pump coronary artery bypass grafting

Mikhail Popov, Institute of General Pathology and Pathophysiology, Russian Federation

Title: Determining the normal values of myocardial performance index of fetus and its significance in Indian population

Souvik Dutta, Asansol District Hospital, India

Title: Repair of Coarctation Aorta in Adults

Khobbanna M Kattimani, NMC, India

Title: Outcomes of Patients Who Underwent Standard Risk Coronary Artery Bypass Graft (CABG) Surgery Under the Philippine Health Insurance Corporation Z Benefit Package in a Single Private Center in the Philippines

Maria Roussel Nennette Tunacao-Sandalo, Perpetual Succour Hospital of Cebu, Philippines

Title: Patient Satisfaction with Perioperative Anaesthesia Evaluation among Elective Surgery Patients at a Tertiary Care Hospital in Karachi

Sham Kumar, National Institute of Cardiovascular Diseases, Pakistan

Title: Simulating open chest resuscitation of the post cardiac surgery patient

Stephanie L. Bailey, Simulation Education Manager Allegheny Health Network STAR Simulation Center, USA

Title: Application of artificial intelligence technology in pediatric cardiology: prospects and unresolved issues

Nataliya Strohaya, Belarusian State Medical University, Belarus

Title: Persistence of gravido-puerperal hypertension three months after delivery and associated factors: A prospective cohort study in Burkina Faso

Guy Hervé Kiswendsida OUEDRAOGO, Joseph Ki-Zerbo University, Burkina Faso

Title: A comprehensive review of the anesthetic management of patients with pulmonary hypertension undergoing cardiac surgery

Bhadresh Amarnath, Elmira College, USA

Title: Efficacy of bilateral erector spinae plane block in patients undergoing off-pump coronary artery bypass grafting

Prabhat Kumar, Medanta Hospital, India

Session: Preventive Cardiology, Cardiac Arrhythmias & Nursing Care

Title: Ramadan fasting: recommendations for patients with cardiovascular disease

Alzahraa Gamal Hasania Sayed, Assiut University in Assiut, Egypt

Title: Left bundle branch area pacing and right ventricular pacing in complete atrioventricular block: Comparative analysis of clinical outcomes and results

Protasova Elena, The Republican Cardiological Dispensary Budget Institution Ministry of Health of Chuvashia, Russian Federation

Title: Adherence to Treatment of Arterial Hypertension

Akatova Evgeniya Vladimirovna, FSBEI HE Russian University of Medicine, Russian Federation

Title: Cigarette Smoking and its Association with Dyslipidemia among Middle-aged Population in Rajshahi District

Farhana Yasmin, Bogura under Ministry of Health of family Welfare of Bangladesh, Bangladesh

Title: Adherence to treatment of Arterial Hypertension

Shikina Mariia Aleksandrovna, FSBEI HE Russian University of Medicine, Russian Federation

Title: Tachycardia induced cardiomyopathy, Case based approach

Omnia Kamel, Aswan Heart Centre, Egypt

Title: The electrophysiological implication of rectifying the development of diabetes, hypertension, and even cancer through Integrated Approach of Yoga Therapy (IAYT)

Snehasis Bhunia, Uttar Pradesh University of Medical Sciences, India

Title: Mitral Valve Prolapse as a Heterogeneous Arrhythmogenic Substrate: Seven Clinical Cases

Dijana Djikic, University Clinic Center Serbia, Serbia

Title: Left bundle branch area pacing and right ventricular pacing in complete atrioventricular block: Comparative analysis of clinical outcomes and results

Protasova Elena, I.N. Ulyanov Chuvash State University, Russian Federation

Title: Tachycardia induced cardiomyopathy, Case based approach

Omnia Kamel, Aswan Heart Centre, Egypt

Title: Nutraceuticals in Cardiovascular Care: Unlocking New Frontiers in Preventive and Adjunct Cardiology

Rajashri Kanad Gutte, Kanad Life Sciences Pvt. Ltd, India

Title: Exploring the medicinal benefits of melissa officinalis (Lemon Balm)

Khushi P. Diwan, Khyati College of Pharmacy, India

Title: High-power zero-fluoroscopy catheter ablation for idiopathic premature ventricular complexes: Procedural efficiency and early clinical outcomes

Aleksey A. Vyrva, Federal Center of Cardiovascular Surgery, Russian Federation

Title: The association of direct current cardioversion before catheter pulmonary vein isolation with long-term rhythm control in patients with persistent atrial fibrillation and heart failure

Rustam Khuziakhmetov, Federal Center of Cardiovascular Surgery named after S. G. Sukhanov, Russian Federation

Title: A Quasi experimental study to evaluate the effectiveness of yoga Therapy and physical exercises on stress and blood pressure among adults with hypertension Nanchiyampalayam, Dharapuram

P Jasmine Sharmila, The Dr.Tamilnadu MGR Medical University, India

Title: Electrical instability of the myocardium in patients with arterial hypertension depending on the severity of concomitant simple psoriasis

Vladimir Razin, Ulyanovsk State University, Russian Federation

Title: Development of a system for managing patients at risk of sudden cardiac death (SCD)

Dmitrii Klypin, Omsk State Technical University, Russian Federation

Title: Long-term effects of HIIT on cardiac function in heart failure

Mohamed A M Imam, York and Scarborough Teaching Hospitals, United Kingdom

Title: Enhancing self-care adherence among heart failure patients: The efficacy of nurse-led educational and monitoring programs

Salha Hamad Alrefaei, Lincoln University College, Saudi Arabia

Title: Young hearts at risk: Awareness of precautionary measures in myocardial infarction patients under 40

Shahida Kashif, Liaquat College of Medicine and Dentistry, Pakistan

Title: An account of recent data on smoking-related buerger's disease and progression to necrosis

M Ishaq Khan, Walden University, USA

Title: Prevalence of chagas disease among patients requiring cardiac implantable electronic devices in Natal-RN, Brazil

Sylton Arruda de Melo, Universidade Potiguar, Brazil

Session: COVID-19 & Heart Health | General Cardiology & Related Research

Title: Cerebral hyperperfusion syndrome as a problem

Ekaterina Emets, Voronezh Regional Clinical Hospital No. 1 (Voronezh), Russian Federation

Title: Cardio Oncology

Jelena Kostadinovic, CHC Bezanijska Kosa, Serbia

Title: Dual-valve culture-negative endocarditis: A case report

Yazan Mazen, Mohammed Bin Rashid University of Medicine and Health Sciences, UAE

Title: Pulmonary Hypertension in Latinoamerica. TREPAP-HP

Adrian Jose Lescano, Centro Gallego, Argentina

Title: Cardiac complications in chronic hemodialysis patients in 36 cases at Military Hospital Nouakchott (Mauritania)

Cheikh Tourad Mohamed Lamine, Military Hospital Nouakchott, Mauritania

Title: Large heterogeneous mass in the right heart chamber: A cardio-oncology case report

João Pedro Perfeito Frigo, Federal University of Uberlândia (UFU), Brazil

Title: An unusual intersection of dermatology and cardiology: Urticarial bullous pemphigoid and microvascular angina in a 68-year-old male from western India – Case report

Kiran Dange, Maharashtra University of Health Sciences, India

Title: Hearing assessment following different types of tympanoplasty in a tertiary care hospital of garhwal region of Uttarakhand state of India:A Retrospective study

Uzma Rehman, ESIC Hospital, India

Title: Presaging of heart disease using machine learning

Ritu Aggarwal, MMEC MMDU Mullana, India

Title: Cross sectional study on symptoms of post-traumatic stress disorder among healthcare professionals in surgical wards at Kurunegala Teaching Hospital, Sri Lanka

Tharushi Bogoda, University of Colombo, Sri Lanka

Title: Deep learning in cardiology: From automated imaging to risk prediction and population health

A Ajina, Sir M Visvesvaraya Institute of Technology, India
